Shaun serves as a Principal on the HoganTaylor Strategic Services team. He has worked in consulting and implementation roles for large and boutique specialty tax services firms for over a decade. Shaun has consulted on behalf of multiple Top 100 INSIDE Public Accounting CPA firms with their clients in various industries, including engineering, construction, manufacturing, and software development.

His practical knowledge from managing and advising on hundreds of studies for research tax credits, energy-efficient building incentives, and renewable energy tax credits helps American businesses understand how to use these incentives to maintain their competitive edge.

Shaun's legal experience includes years in management at a high profile legal advisory firm, where he worked with multiple Fortune 100 corporations and managed large teams of dozens of attorneys in support of patent litigation and antitrust matters.
